Attached document includes a few recommended comments including reflecting that PFAS have been detected in GW in all states as Bryan mentioned below.

Thanks.

One additional note... I am pretty sure that PFAS have been detected in all of the New England states.

Thanks Jane, I really think those are good suggestions. The attached reflects them, with the one exception that instead of putting your final suggestion as the beginning of the last paragraph, I put into the beginning of the second to last paragraph, where I think it fits a little bit more naturally.

In any event, I'm curious what Alex thinks of all this!

Hi Dave

Hope you are well

Thanks for sharing – a few suggestions:

# Deliberative Process / Ex. 5

Just food for thought

Happy to further explain

Have a good night

Hi Alex & All,

Attached is a first draft of an OPED for PFAS. I am hoping to get R1 input before sending our proposed language to HQ for their input.

This is based on the item sent by Administrator Pruitt to the Detroit Free Press.

Thanks in advance for your feedback!  
Dave
